

## Section 111 Systems Review Audit

### Enhance Efficiency and Quality of Reporting

Our Section 111 Systems Review Audit provides an essential wellness check, evaluating your current workflows and reporting data to identify and help minimize your potential risk of Civil Money Penalties (CMPs) and conditional payment and lien exposure. At \$1,000 a day (plus interest), penalties can add up fast, so the time to shore up your Section 111 program is right now.

### Internal Claims Review

The **IMPAXX** team reviews your internal claims system for the following:

- Ongoing Responsibility for Medicals (ORM) reporting dates
- Total Payment Obligation to Claimant (TPOC) reporting dates and amounts
- Diagnosis codes used for reporting
- Settlement documents, court orders, pleadings for ORM / TPOC dates and amounts, and more

*Our audit offers an important resource for identifying errors and mistakes in the reporting process.*

### Helping You Navigate the Reporting Process

#### Experience

Former practicing attorneys with auditing experience and a background in MSP compliance and Section 111 Reporting requirements

#### Guidance

Education and training on Section 111 Reporting and MSP Compliance

#### Recommendations

Review of protocols and processes to determine best practices

#### Documentation

Detailed report of findings, highlighting areas of concern and opportunities for improvement
