Section 111 Reporting

Achieve Compliant Mandatory Insurer Reporting

The proactive and successful management of the federally regulated Section 111 reporting process has never been more important. With continually changing regulations, and the risk of significant fines for non-compliance, your organization needs a solution that provides insight into, and control of, your reporting and compliance activities.

Our advanced reporting solution, **111 Reporter**, facilitates comprehensive and accurate reporting, simplifies the Mandatory Insurer Reporting process, and enables your compliance with Centers for Medicare & Medicaid Services (CMS) requirements while helping you avoid significant penalties of up to $1,000 per day/per claim.

> *111 Reporter enables you to proactively control your Mandatory Insurer Reporting process while helping you save time, reduce errors, and simplify your workflow.*

How It Works

With flexible options for providing your data, **111 Reporter** can accommodate any size organization. Once received, your information is then parsed, mapped, and processed through our data validation engine, which verifies compliance with CMS reporting guidelines. We then perform the tasks necessary to accurately report required ORM and TPOC events in a timely manner. Errors are identified for correction and data is validated before submission to Medicare to facilitate a compliant submission process.

Fast and Intuitive Insights

Our state-of-the-art platform provides you with comprehensive, customizable reports that help reduce the risk of Section 111 non-compliance. Data analytics layered on top of the system create an opportunity for you to strategize and minimize your cost exposure for each claim. **111 Reporter** offers:

Visibility
Gain insight into your claims at-a-glance with your customized dashboard

Management
Track claim and query submissions with built-in reporting

Control
Review error reports and manage key dates for submissions

Partner with IMPAXX to navigate your Section 111 reporting and achieve your compliance goals. Free up time for your team to focus on claims management. Contact us today to learn more or schedule a demo.
